COURSE DESCRIPTION

The LEED® Green Associate course is designed to help industry professionals streamline their education process in preparing for the USGBC's LEED Green Associate exam. The course covers the fundamentals of green building and LEED.

COURSE WILL COVER

- Green Building Basics
- LEED 2009 Rating Systems and the LEED® Process
- LEED Credit Synergies
- LEED Green Associate Exam

YOU WILL RECEIVE

- #1 Selling LEED Green Associate Study Guide (www.greenexamprep.com)
- 8 hrs of MP3 recordings of LEED Fundamentals
- 60 day access to 4 electronic exams (100 questions each) that tests your knowledge and readiness for the actual exam
- Printable test preparation Flashcards
- Bonus! LEED AP practice exams

COURSE STRUCTURE

- One day class that meets from 8:30 a.m. to 5:00 p.m. with 45 minute lunch break (lunch is provided).
- Course lecture, case study activities and practice test questions
- Class size of 10 to 20 people

Click [here](#) to learn more about becoming a LEED® Green Associate

LEED Green Associate Candidates must have experience in the form of:

1. **EITHER** documented involvement on a LEED-registered project
2. **OR** employment (or previous employment) in a sustainable field of work
3. **OR** engagement in (or completion of) an education program that addresses green building principles.

This course meets requirement option #3 above.

Once you complete this course, you will be eligible to apply for the LEED Green Associate exam via www.gbci.org.
